

Bubble Dough

1 cup corn flour
½ cup washing up liquid
2 tsps oil
Colouring if desired

(1 box of corn flour = 3 cups, so times the rest by 3!)

Mix all together and knead well. Keep in the fridge in a sealed container/cling film.

You can also use hand wash, bubble bath/shower gel, maybe shampoo. Obviously this dough will not be especially nice to eat and children will need to wash their hands to prevent it getting in their eyes, food, etc.
